# On the Subject of The Plunger

Houston, we have an easy needy module.

- On the module, you will see a colored plunger with text on it.
- Using the tables below, look up the two numbers using the plunger's color and text, and how many times it has activated before.
- If the needy has activated more than five times, restart at one.
- Add the two digits received from the table, and if it is over 10, subtract 10 until it is a single digit.
- Release the plunger when the last digit of the timer is equal to the digit you have calculated.

Activations	Red	Blue	Green	Yellow
1.	3	3	5	9
2.	2	8	9	7
3.	0	4	5	6
4.	1	5	2	1
5.	3	4	4	7

Activations	Foe	Though	Neat	Need
1.	7	5	3	3
2.	6	7	6	2
3.	1	4	1	7
4.	9	5	9	0
5.	2	2	3	7
